The fifth European Lean Educator Conference

14-15 November 2018

organised by

University of Minho, Braga, Portugal

The European Lean Educator Conference provides a platform for trainers / coaches / consultants / lecturers / researchers / professors and teachers from industry, academia and government organizations in order to share their knowledge and experiences and learn from each other.

The theme of the conference is *Learning, Developing and Applying Lean Solutions*

How to enhance the effect of educating lean as well as developing and applying effective lean solutions in different environments? This is the key question which will be addressed by a number of keynote speakers and presenters in parallel sessions, workshops and panel discussions.
